

FOR IMMEDIATE RELEASE

Sensidyne Launches Gilian *Go-Cal Pro* Air Flow Calibrator

ST. PETERSBURG, Fla. (Dec. 1, 2023) – A global leader in industrial health and safety solutions, Sensidyne® proudly announces the official launch of the Gilian® Go-Cal™ Pro, an advanced portable air flow calibrator designed to revolutionize precision calibration on the jobsite.

The Gilian Go-Cal Pro stands out in its category for its superior features, including its distinction as the only portable air flow calibrator featuring an unprecedented 1% accuracy across the entire three flow ranges. It sets a new standard for accuracy, reliability, and ease of use in air flow calibration, catering to professionals across industries such as environmental monitoring, industrial hygiene, occupational health and safety, and other air flow applications.

Key Features of the Gilian Go-Cal Pro Include:

- **Precision Calibration:** The Go-Cal Pro ensures unparalleled accuracy in air flow calibration, securing its place as an award-winning solution for professionals across various industries.
- **User-Friendly Interface:** Designed with simplicity in mind, the intuitive graphical user interface of the Go-Cal Pro makes it easy for operators to navigate and perform calibrations with confidence.
- **Compact and Portable:** The portable design of the Go-Cal Pro enhances field usability, allowing professionals to carry out on-the-spot calibrations efficiently.
- **Advanced Technology:** Leveraging cutting-edge technology, the Go-Cal Pro provides advanced features that streamline calibration processes, saving time, improving sample integrity, and enhancing overall efficiency.

Sensidyne President and Chief Operating Officer, Glenn Warr, expressed excitement about the launch of the Gilian Go-Cal Pro, stating, "At Sensidyne, we are committed to pushing the boundaries of innovation to provide our customers with the best tools for ensuring workplace safety and environmental compliance. The Gilian Go-Cal Pro is a testament to that commitment, offering a level of precision and convenience that sets it apart in the market."

The Gilian Go-Cal Pro is the latest addition to Sensidyne's comprehensive portfolio of industrial hygiene and safety solutions. For more than 40 years, the company's dedication to quality and innovation has made it a trusted partner for professionals seeking progressive instruments to safeguard workplace environments. The Gilian Go-Cal Pro was recently honored in Occupational Health & Safety's 15th annual New Product of the Year awards, specifically in the Industrial Hygiene Calibrators category.
